

Dr. Lowery,

I do not have a short case study to submit but thought you would find some useful and relevant information in this investigation report. This was sent to me by a colleague in the UK. You may have read or heard about this last October when it hit the news.

This is a hard hitting [accident investigation](#) which makes for very uncomfortable reading. Hopefully this will be of interest to you and your team.

Regards,

Joseph E. Zanoni, P.E., CSP
